Profile

A highly motivated and dedicated front-end software developer. Confident with using HTML, CSS, JavaScript and React. Also confident using back end applications such as MYSQL and express and nodejs. My passion for software development arose due to my creative interests. I enjoy making websites from scratch and software development gives me an outlet to be able to be creative.

Codenation Master Software Course

Master Software Course

May 2023 — Aug 2023   ⚲ Warrington

Technical Skills

- Programming Languages : JavaScript
- Front-End : HTML5, CSS3, React
- Back-End : Node.js, Express, MySQL, Sequelize
- Version Control : Git
- Web Tools : VS Code, Chrome Dev Tools
- Problem-Solving : Analytical thinking

Soft core Skills

- Problem solving
- Adaptability
- Communication skills
- Collaboration skills

Projects:

Tamagotchi Game :

Created a Tamagotchi application using HTML5, CSS and JavaScript. The visuals used classic Pokemon as our characters.

Cookie Website :

Built a full stack application using, HTML5, CSS, React, Node.js, Express, MySQL and Sequelize and external APIs. Users were able to create an account and have their account information display itself dynamically on the account page. Users were also able to pull recipe ideas from an API. On this project I was also project managing and used Trello to plan the daily tasks. I also coordinated daily stand ups to encourage the team to work collectively.

Portfolio Website :

Designed and developed personal portfolio website using HTML5, CSS, JavaScript and React. The website displays some of the projects that I have completed.

Employment History

Data Entry , Iron Mountain

Nov 2022 — May 2023   ⚲ Warrington

- Conducted data entry and verification to ensure data accuracy and completeness.

- Successfully identified and resolved data entry errors, resulting in improved data accuracy

Customer Service Agent, Kindertons

Mar 2022 — Sep 2022   ⚲ Crewe

- Handled customer complaints and inquiries in a professional manner, resolving their issues on the first call.
- Established a rapport with customers and provided exceptional service that resulted in customers remaining with the company.
- Collaborated with other departments to ensure customer satisfaction.

Store Manager , Thelwall Stores

Aug 2019 — Jul 2022   ⚲ Warrington

- Performed daily store opening and closing duties, ensuring that all store policies were followed
- Developed and implemented an efficient filing system to track and store documents, resulting in improved organization and retrieval of documents
- Ensured store safety by monitoring customer activity and enforcing store policies

During my previous roles in customer service I have developed my communication skills greatly. I am able to communicate clearly and concisely which leads to improved collaborative efforts. I also have empathy from understanding and addressing customer needs. I believe in software development this will be beneficial due to understanding end-users requirements and ensuring all of their requirements are met. Adaptability is also a skill which I was able to develop in customer service due to the needs of the client changing often. I would have to adapt my approach in communication depending on the needs of the client. I believe this skill will transfer over to software development as project requirements are prone to change and technology is constantly evolving. Customer service involves identifying issues and finding solutions for the client so problem solving is vital. I also believe this will be a vital skill in software development as its crucial for a software developer to be able to provide solutions to technical challenges.

Education

Manchester Metropolitan University, BA History

Sep 2016 — Aug 2019

Graduated with Honors.
